BIO

Cody Martin is a self-taught animator and illustrator based in Covington, Georgia. Throughout his early childhood he was always doodling; be it on the back of class worksheets or at home fleshing out stories of his own. In middle school, Cody began to take art more seriously and even had his art chosen from a pool of candidates to be displayed in his home county's public library. He also began commission work during this time. Continuing to create unique pieces for clients throughout high school such as a piece for his school's very first community service club "Everlight."

Cody's art style is a unique blend of western and eastern cartoon styles. As well as trying to incorporate realistic proportions and details for a more stylized and interesting approach.
